

Green Story

Product Name: **De-vine- 3918**

Contents: 56% Polyurethane, 38% Nylon, 6% Polyester

Usage: Leather alternative, Upholstery, Panel, Eco-fabric

- 1) Our polyurethane is biodegradable.
- 2) Naturally soft and flexible, polyurethane does not require the solvents used to soften PVC or leather.
- 3) Polyurethane faux leather offers a greener alternative to vinyl (PVC). PVC contains chloride and is not biodegradable. It leaches toxic additives in landfills and emits carcinogenic dioxin when incinerated.
- 4) Polyurethane faux leather offers a greener alternative to leather. Leather production is a chemical-laden process, including the use of heavy metals.
- 5) General cleaning of polyurethane surfaces often requires only soap and water.
- 6) **De-vine** is manufactured in facilities that are conscientious of the green movement. A variety of policies are in place, such as air and water pollution decrement systems, as well as reduction and reuse of solvents.
- 7) **De-vine** is manufactured in an ISO 14001 certified facility. ISO 14001 creates an Environmental Management System (EMS) to identify and achieve environmental goals.

For more information, please visit www.iso.org

- 8) All pigments and chemicals used in the facilities comply with EPA guidance.

COLOR OPTIONS:

3918-01 3918-02
