

## Green Story

### Environmental impact and sustainability specifications of Brentano Green fabrics

**PRODUCT:** **Holbein – 4550**

**CONTENTS:** 67% High Energy-Dyed PC Recycled Polyester, 33% Solution-Dyed Nylon

**USAGE:** Eco-fabric, Upholstery, Recycled content, LEED points possible.

1. **Holbein** is manufactured from 67% post-consumer recycled polyester. Using recycled fibers preserves the resources needed to manufacture new fibers and reduces waste destined for landfills.
2. **Holbein** uses 33% solution-dyed polyester. Solution-dyed yarns require less water and energy than package-dyed yarns.
3. The mill that manufactures **Holbein** has environmentally conscious practices in place, including an initiative to reuse all selvedge waste by donating it to the Amish community to be woven into rugs.
4. **Holbein** is finished with **GreenShield**, a silica-based nanotechnology.
  - A. GreenShield is a topical finish that utilizes 7-10 times fewer fluorocarbons than similar finishes and releases no VOC emissions.
  - B. This technology requires lower temperatures, and therefore less energy, compared to similar finishes.
  - C. GreenShield is certified by SCS as a Low Fluorocarbon Treatment product and is the only stain resistance finish that is eligible for use on a MBDC Cradle to Cradle Certified product.
