

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Dizzy – 5418**

CONTENTS: 57% Post-Consumer Agion Polyester, 43% Post-Consumer Recycled Polyester

USAGE: Eco-fabric, Upholstery, Recycled content, LEED points possible.

1. **Dizzy** is manufactured from 100% post-consumer recycled polyester. Using recycled fibers preserves the resources needed to manufacture new fibers and reduces waste destined for landfills.
2. **Dizzy** can continue to be recycled, preventing it from ever reaching a landfill.
3. The majority of yarns used for **Dizzy** (57%) are embedded with Agion. Agion antimicrobial technology is based on naturally occurring elements (silver and copper ions) and has been assessed and approved by the following third party organizations: Bluesign Standard Certification, Cradle to Cradle Certification at the Silver tier and Oeko-Tex Standard 100.
4. The mill that manufactures **Dizzy** is ISO 14001 certified.
5. The mill that produces **Dizzy** achieved an MBDC Cradle to Cradle Silver certification for the fabric.

This icon appears on all Brentano fabrics that are **MBCD Cradle to Cradle certified**.

For more information, please visit <http://www.mbd.com/c2c>

6. **Dizzy** is finished with **GreenShield**, a silica-based nanotechnology.
 - A. GreenShield is a topical finish that utilizes 7-10 times fewer fluorocarbons than similar finishes and releases no VOC emissions.
 - B. This technology requires lower temperatures, and therefore less energy, compared to similar finishes.
 - C. GreenShield is certified by SCS as a Low Fluorocarbon Treatment product and is the only stain resistance finish that is eligible for use on a MBDC Cradle to Cradle Certified product.
