

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Splash – 8123**

CONTENTS: 60% Post-Consumer Recycled Polyester, 24% Solution-Dyed Nylon, 16% Polyester

USAGE: Eco-fabric, Upholstery, Recycled content, LEED points possible.

1. **Splash** is manufactured from 60% post-consumer recycled polyester.
2. Using recycled fibers preserves the resources needed to manufacture new fibers and reduces waste destined for landfills.
3. **Splash** is manufactured from 24% solution-dyed nylon. Solution-dyed yarns require less water and energy than package-dyed yarns.
4. The facility that manufactures **Splash** has environmentally conscious practices in place, including waste reduction and recycling, consolidation of shipments, water conservation, and energy reduction initiatives.
5. **Splash** is finished with **GreenShield**, a silica-based nanotechnology.
 - A. GreenShield is a topical finish that utilizes 7-10 times fewer fluorocarbons than similar finishes and releases no VOC emissions.
 - B. This technology requires lower temperatures, and therefore less energy, compared to similar finishes.
 - C. GreenShield is certified by SCS as a Low Fluorocarbon Treatment product and is the only stain resistance finish that is eligible for use on a MBDC Cradle to Cradle Certified product.
