

## Green Story

### Environmental impact and sustainability specifications of Brentano Green fabrics

**PRODUCT:** **Rodez – 8127**

**CONTENTS:** 100% Bella-Dura Solution-Dyed Polypropylene

**USAGE:** Eco-fabric, Upholstery, Outdoor/Indoor, LEED points possible.

- Rodez** is made from polypropylene, a petroleum by-product, and repurposes what would otherwise become post-industrial waste.
- Rodez** uses 100% solution-dyed fibers. Solution-dyed yarns require less water and energy than package-dyed yarns.
- All dyes and chemicals are non-toxic.
- Rodez** is finished with **GreenShield**, a silica-based nanotechnology.
  - GreenShield is a topical finish that utilizes 7-10 times fewer fluorocarbons than similar finishes and releases no VOC emissions.
  - This technology requires lower temperatures, and therefore less energy, compared to similar finishes.
  - GreenShield is certified by SCS as a Low Fluorocarbon Treatment product and is the only stain resistance finish that is eligible for use on a MBDC Cradle to Cradle Certified product.
