

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: Archipelago 8129

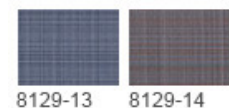

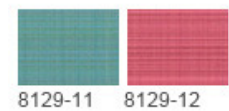

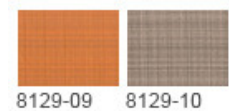

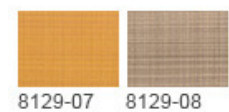

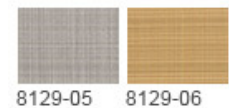

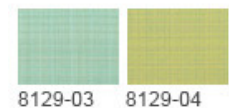

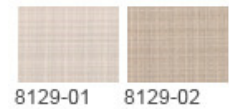

CONTENTS: 100% Bella-Dura Solution-Dyed Polyolefin

USAGE: Eco-fabric, Upholstery, Outdoor/Indoor.

- 1. Archipelago** is made from polyolefin, a petroleum by-product, and repurposes what would otherwise become post-industrial waste.
- 2. Archipelago** uses 100% solution-dyed fibers. Solution-dyed yarns require less water and energy than package-dyed yarns.
- 3.** All dyes and chemicals are non-toxic.
- 4.** 100% of Bella-Dura fabric and scrap can be recycled instead of being discarded into landfills. The process begins by sending samples of the fabric and a completed description/approval form for the waste available for recycling. Once approved, fabric is returned to Bella-Dura and the fabric enters the recycling stream.
