

Environmentally Friendly Textiles by BRENTANO, Inc.

## Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

**PRODUCT:** Landscape - 9414  
**CONTENTS:** 100% Silicone Face; Overall: 64% Polyester, 36% Silicone  
**USAGE:** Eco-fabric, Upholstery

1. The production of silicone does not require the use of any volatile organic compounds, solvents, plasticizers, or phthalates.
2. Silicone faux leather offers a greener alternative to vinyl and polyurethane. Residual chemicals from the production of vinyls and certain types of polyurethanes leach toxic chemicals into landfills and emit carcinogenic compounds when incinerated.
3. Silicone faux leather offers a greener alternative to leather. Leather production is a chemical-laden process, including the use of heavy metals.
4. Silicone surfaces are naturally cleanable and PFC free. Water and/or a mild enzyme detergent may be used.
5. Silicone is a naturally fire retardant material.
6. Water used in the manufacturing process of Landscape is reclaimed and recycled.
7. Landscape is VOC, BPA, and heavy metal free. It is free of any fire retardant or anti-microbial additives.
8. Landscape is compliant with environmental and green building standards such as REACH, RoHS 2.0, LEED, California Prop 65, and Healthier Hospitals Initiative.
