Turn an Interior into a Haven with Award-winning Collection

Brentano's fall 2009 *Haven* Collection wins awards for excellence in product design

Wheeling, IL (August 2009)— Brentano's residentially-inspired fall 2009 Haven collection combines traditional elements like rich textures, understated elegance, and a soft hand with exciting details, current colors, and wearability—making them ideal for residential, hospitality, or corporate environments.

Two of the patterns won awards prior to their market release. Entered in the 13th Annual IIDA/HD Product Design Competition honoring innovative, functional, and aesthetically beautiful design products for the hospitality industry, each took home the award for their respective category.

De-Vine, a double-embroidered faux leather with a large-scale repeat, won the IIDA/HD Product Design Award for upholstery entrants, and Rendezvous, a fashion-influenced pattern available in three luminous colors took home the award for drapery, bedspread, or casement fabrics.

About Brentano

Founded in 1990 by Design Director Iris Wang and her husband and President E-Kwan Chen, Brentano has grown from a modest beginning of eight patterns to an internationally represented textile house. Brentano's fabrics stem from Wang's philosophy of balancing beauty + performance. Our growing collection of eco-fabrics expands this ideology by demanding textiles to meet thoroughly researched standards of environmental consciousness while maintaining their beauty. Brentano offers a variety of innovative and interesting eco-friendly faux leather, as well as high performance upholstery, fire-resistant, outdoor and Crypton and Nano-TEX fabrics. Award-winning De-vine is anything but average. Double-embroidered with a large-scale repeat, this faux leather is ideal for accent pieces in upscale interiors and can be paired with its durable solid counterpart Ooh La La to create a striking interior.

Rendezvous-California Dreamin' (9200-02).

Rendezvous-California Dreamin' (9200-02), and Paris after Dark (03).

Two layers of luminous fabric come together in award-winning Rendezvous, a drapery constructed by laser-cutting a layer of stylish sails to create beautiful depth and luster. Available in three fashionable colorways, Rendezvous appears delicate but is durable enough to be used as pillows and throws.
