## **Brentano's New Cityscape Collection Introduces Award Winning Pattern Indoor/outdoor fabric Solstice achieves IIDA/HD Award, HiPAward and #MetropolisLikes Award**

**Wheeling, IL. (August 2016)** — Drawing inspiration from Brentano's successful pattern Equinox, **Solstice** – redesigned for indoor/outdoor applications – joins the new Cityscape collection. Representing Brentano's collaboration with Sunbrella® Contract, the pattern joins the collection with notable recognition. Solstice achieved an *IIDA/HD Product Design Award* at the HD Expo show this past May; and, at NeoCon, the dynamic textile was awarded with a *HiP Award* (Honoring Industry People and Innovative Products) from Interior Design magazine and the *#MetropolisLikes Award* for excellence in aesthetics and functionality from Metropolis magazine.

Inspired by the constellations themselves, Solstice is as big and as bold as the celestial bodies that inhabit the night sky. Designed for indoor and outdoor usage, the 54" upholstery offers stain resistance and bleach cleanability for a wide range of applications. The solution-dyed acrylic and polyester warp allows for extreme lightfastness and boasts an abrasion resistance that passes 50,000 double rubs (Wyzenbeek, Cotton Duck). Created to be environmentally conscientious, the pattern has received a Facts Silver sustainability certification, truly rivaling the brilliance of the sun.

### **About Brentano:**

The Brentano Design studio, led by Iris Wang, celebrated 25 years in 2015. The textile house has grown from a modest eight patterns in 1990 into an international source for polyurethane faux leather, outdoor, Crypton, Nano-Tex and GreenShield-finished, eco-friendly and fire retardant products. The carefully curated line reflects Iris' lifelong study of fine art, nature and Asian philosophy in beautiful, high-performing solutions for the contract, hospitality, healthcare and residential markets. *Solstice 5815*

Available in seven colorways, Solstice's large-scale repeat mimics the rising and setting sun as the vibrant tessellation of triangles dance across the face of the fabric like shooting stars.
