ink | **SAFE** Fabric Care

Polyurethanes with ink|SAFE provide the best protection against stains. Unlike a topical finish, ink|SAFE chemically bonds with the fabric for permanent, proven protection. The durable, bleach cleanable face of Brentano's ink|SAFE polyurethanes resists even ballpoint pen marks for an easy-to-maintain, flawless appearance.

Basic Stains

Remove ordinary dirt and smudges with a clean cloth or with mild soap and water.

Difficult Stains

Dry stains such as ballpoint pen can be dry-erased with a clean, lint-free cloth. Rub the stained area until the stain has been removed. If residual staining remains, apply rubbing alcohol to a clean cloth and gently rub the stain until it has been removed. Ink|SAFE polyurethanes can also be cleaned with a solution of one part household bleach and five parts water (1:5). After cleaning with bleach, wipe down the area with clean water and dry the surface to remove any residual bleach solution.
