

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Rainforest - 2525**

CONTENTS: 100% Post-Consumer Recycled Polyester

USAGE: Eco-fabric, Upholstery, Recycled content, LEED points possible

1. Brentano's recycled polyester fiber is made from post-consumer polyesters. One source of post-consumer polyester is plastic bottles that otherwise may have ended up in landfills.
2. Using recycled polyester fibers preserves virgin oil needed to manufacture new polyester fibers.
3. **Rainforest** can continue to be recycled, preventing it from ever reaching a landfill.

Visit www.brentanofabrics.com/green for more Brentano Green fabrics with recycled content.
