

## Green Story

### Environmental impact and sustainability specifications of Brentano Green fabrics

**PRODUCT:** **Mythos - 5118**

**CONTENTS:** 100% Post-Consumer Recycled Polyester

**USAGE:** Eco-fabric, Upholstery, Recycled content, LEED points possible

1. Brentano's recycled polyester fiber is made from post-consumer polyesters. One source of post-consumer polyester is plastic bottles that otherwise may have ended up in landfills.
2. Using recycled polyester fibers preserves virgin oil needed to manufacture new polyester fibers.
3. **Mythos** can continue to be recycled, preventing it from ever reaching a landfill.
4. This textile is a low or non-emitter of VOCs.
5. **Mythos** is made using 100% wind power.
6. **Mythos** is finished with **GreenShield**, a silica-based nanotechnology.
  - A. GreenShield is a topical finish that utilizes 7-10 times fewer fluorocarbons than similar finishes and releases no VOC emissions.
  - B. This technology requires lower temperatures, and therefore less energy, compared to similar finishes.
  - C. GreenShield is certified by SCS as a Low Fluorocarbon Treatment product and is the only stain resistance finish that is eligible for use on a MBDC Cradle to Cradle Certified product.
