

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Holmes - 5528**

CONTENTS: 100% Wool Pile; 62% Wool, 20% Cotton, 18% Polyester

USAGE: Eco-fabric, Upholstery, Rapidly renewable, LEED points possible

1. The environmental focus of the Back to Basics collection is water usage. **Holmes** qualifies for the Brentano Green label because of the attention paid to water conservation throughout the manufacturing process.
2. A fiber-dyed product, **Holmes** used only 30% of the energy and water that would be required for piece-dyeing.
3. The mill that produces **Holmes** has several environmental programs in place, including a system to collect rainwater for reuse during manufacturing.
4. The facility that produces **Holmes** complies with stringent local environmental laws.
5. All dyes and chemicals used comply with the REACH Regulation.
