

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Sputnik - 6202**

CONTENTS: 100% TPU (Thermoplastic Polyurethane)

USAGE: Drapery, Eco-fabric

1. Our polyurethane is degradable.
2. Naturally soft and flexible, polyurethane does not require the plasticizers (DOP) used to soften PVC or the chromium used in leather tanning.
3. General cleaning of polyurethane surfaces often requires only soap and water.
4. Thermoplastic polyurethane is inherently flame retardant and does not require any additional chemical treatments to pass NFPA 701 Small Scale.
5. **Sputnik** is manufactured in facilities that are conscientious of the environment and comply with local environmental ordinances. A variety of policies are in place, such as air and water pollution decrement systems, as well as reduction and reuse of solvents.
6. **Sputnik** is manufactured in an ISO 14001 certified facility. ISO 14001 creates an Environmental Management System (EMS) to identify and achieve environmental goals. *For more information, please visit www.iso.org*
7. All Pigments and chemicals used in the facility comply with EPA guidelines.
