

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Viva – 6514**

CONTENTS: 53% Polyester, 46% Post-Consumer Recycled Polyester

USAGE: Eco-fabric, Upholstery, Recycled content, LEED points possible.

1. **Viva** is manufactured from 46% post-consumer recycled polyester.
2. Using recycled fibers preserves the resources needed to manufacture new fibers and reduce waste destined for landfills.
3. **Viva** can continue to be recycled, preventing it from ever reaching a landfill.
4. The mill that manufactures **Viva** has environmentally conscientious practices in place. They reclaim and reuse water and heat from manufacturing processes and have eliminated the environmental impact of the dyes they use for recycled polyester yarns like the ones in **Viva**. Also, notably, their waste strategies have resulted in zero production or ancillary waste going to landfills.
