

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

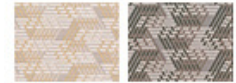

PRODUCT: **Transit - 6536**

CONTENTS: 57% Polyester, 43% Recycled Polyester

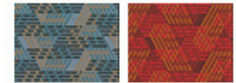

USAGE: Eco-fabric, Upholstery, Recycled content.

- 1. Transit** is manufactured from 43% recycled polyester. Using recycled fibers preserves the resources needed to manufacture new fibers and reduce waste destined for landfills.
- The mill that manufactures **Transit** has environmentally conscientious practices in place. They reclaim and reuse water and heat from manufacturing processes and have eliminated the environmental impact of the dyes they use for recycled polyester yarns like the ones in **Transit**. Also, notably, their waste strategies have resulted in zero production or ancillary waste going to landfills.
- 3. Transit** complies with ACT Facts Silver and meets requirements of the multi-attribute sustainability standard NSF/ANSI 336.
