

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Dancehall – 9810**

CONTENTS: Pile: 100% Cotton; Overall: 79% Cotton, 21% Polyester

USAGE: Eco-fabric, Upholstery, Rapidly renewable, Biodegradable, LEED points possible

1. The overall contents of **Dancehall** include 79% cotton. Cotton is a biodegradable, rapidly renewable resource.
2. **Dancehall** uses a revolutionary “foam dyeing” process that conserves water and energy.
 - A. The process uses over 90% less water than traditional dyeing.
 - B. Reducing water usage also conserves the energy typically needed to heat dye baths.
 - C. Less water input means less discharged into the waste stream.
