

Environmentally Friendly Textiles by BRENTANO, Inc.

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: Phoenix 3164
CONTENTS: 56% Post-Industrial Recycled Cotton, 26% Acrylic, 18% Polyester
USAGE: Eco-fabric, Upholstery

1. Phoenix is made from 56% post-industrial recycled cotton content. Post-industrial content is any material that's recycled after the manufacturing process, but before reaching consumers. Pre-consumer or post-industrial recycled content may come from material trimmings, byproducts, or defective items produced in the manufacturing process.
2. The mill that manufactures Phoenix has environmentally conscious practices in place, including renewable energy resources used during the manufacturing process.
3. Made in modern energy efficient facility.
4. Phoenix is made with no known hazardous components or off-gassing.
